### 1) Program Description:

Students with disabilities experience significant barriers when attempting to access health and wellness activities. Typical barriers include:

- Individuals aiding individuals with disabilities lack awareness on how to involve them on teams.
- There are few opportunities and programs for training and competition for students with disabilities.
- Facilities are often not accessible.
- Information and services that promote health and wellness are not designed to consider the preferences and needs of youth with disabilities.

To assist youth with disabilities to participate in sports in the way they want and with whom they want to participate ODDC will support a project that will create and/or expand opportunities for youth with disabilities to participate in an inclusive sport program.

A complete description of each project, known as the State Plan Language, is included as part of the Notice of Funds Available on [www.ddsuite.org](http://www.ddsuite.org).

This project will be supported, in part by the Ohio Developmental Disabilities Council, under grant number 2301OHSCDD from the U.S. Administration for Community Living, Department of Health and Human Services, Washington, D.C. 20201. Grantees undertaking projects with government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore, necessarily represent official ACL policy.

5) Application Review Information:

Applications for this project will be evaluated by a grant review panel that consists of five (5) individuals: two external reviewers with knowledge of the subject matter and three Ohio Developmental Disabilities Council members. Panel members are selected prior to the issuance of this Notice of Funds Available. Panel members must confirm, by signature, they do not have a fiduciary or pecuniary conflict of interest in the project.

Each panel member will independently review and score each application using the DD Council's competitive review evaluation score sheet. During the competitive grant review, the scores for each project will be collected and tabulated. Low scoring proposals may be eliminated without further consideration or discussion. Following a discussion of any remaining proposals, the review panel may select an application for award. Decisions of the grant review panel require a majority vote of the panel.

Applications may be awarded up to 100 points by a reviewer using the competitive review evaluation score sheet. Each score sheet consists of seven sections and includes a scoring range for each section. The sections of the score sheet have a corresponding section to the application, as follows:

- a. Executive Summary (0-5 Points): Applicants are asked to provide a one paragraph abstract that clearly identifies the goals and major activities of the project. Reviewers are asked if the applicant's response clearly states the goal and major activities of the project.
- b. Qualifications (0-5 Points): Applicants are asked to describe their organization's qualifications to implement the proposed project. Applicants are also asked to include a

description of their organization's mission and philosophy. Reviewers are asked to score the project based on the organization's mission and philosophy, experience providing culturally competent services or support to individuals with developmental disabilities and their family members, experience as an advocate on behalf of individuals with developmental disabilities and their families, the knowledge and expertise that qualifies the applicant to successfully conduct the project, the knowledge and expertise of the project personnel, and how many current grants are held by the applicant. Reviewers may also consider the required letters of recommendation and the resume of the project director.

- c. **Project Narrative (0-45 Points):** Applicants are asked to describe the project and how it will accomplish the outcome statement and how it will achieve the outputs provided in the project description. Applicants are also asked to describe what strategies will be used to verify data generated by the project. Applicants are also asked to describe what impact the project will have on individuals with developmental disabilities. Reviewers are asked to score this section based on how well the applicant describes methods to reach the outcome statement and outputs, how effective the strategy the verify data will be, and to what degree the project activities will have an impact on individuals with developmental disabilities.
- d. **Outreach to Un/Underserved Communities (0-15 Points):** Applicants are asked to identify the un/underserved communities in their project area, to identify which un/underserved population the project will target for inclusion in activities, to identify the needs and barriers to service of the identified population, to identify the affirmative or proactive activities the applicant will conduct to reach the identified population, to list key community partners or organizations to assist with the identified population, to describe plans to sustain this activity, to identify how progress towards reaching the identified population will be measured, to identify how barriers towards progress will be addressed, and, if possible, to describe how the project can identify and report on disparities among the identified population. Reviewers are asked to rate the responses provided to each of the sub-questions.
- e. **Inclusion of Individuals with Developmental Disabilities (0-15 Points):** Applicants are asked to describe how the project will include individuals with disabilities and family members in the project's activities and to identify if there are paid or unpaid roles for individuals with disabilities. Reviewers are asked to score the section based on whether they believe the project includes appropriate efforts to include individuals with disabilities and their family members in project activities.
- f. **Budget & Budget Explanation (0-5 Points):** Applicants are asked to provide a proposed budget based on eight (8) categories which include Personnel with Fringe Benefits, Personnel without Fringe Benefits, Contracted or Subcontracted Services, Travel, Supplies and Publications, Space or Rental Costs, Other Direct Costs, Volunteer Services or Indirect Costs. Applicants are also asked to include an explanation or justification for how budget items were estimated or calculated. Reviewers will examine this section for appropriateness.
- g. **Project Outcomes and Activities (0-10 Points):** Applicants are asked to identify outcomes that will be achieved throughout a grant year, to describe activities that will be performed to achieve each outcome, to identify project staff who will be responsible for each activity, and to provide a clear timeline of expected achievement of activities and outcomes. Applicants are also asked to identify outputs they intend to achieve through project activities and outcomes. Reviewers are asked to score this section based on

whether the project includes the appropriate outputs and target numbers, whether each activity and output is relevant to the outcome, whether the application adequately describes responsibilities for activities and outcomes and provides a clear timeline, and whether the application includes an objective related to achieving the outreach goal identified in the project narrative section.

The authority to award or decline an application for this project lies with the grant review panel.
